

April 8, 1980

LB 283, 899

CLERK: Senator Goodrich and Schmit would like to print amendments to LB 283. Senator Clark would like to print amendments to LB 899. (See pages 1735-36 of the Journal.)

A letter from the Governor correcting a clerical error on the veto message, Mr. President, will be inserted in the Journal. (See page 1735.)

SPEAKER MARVEL: Senator Hefner, do you want to adjourn us...nine o'clock tomorrow morning?

SENATOR HEFNER: Mr. President, members of the body, I move that...

SPEAKER MARVEL: I'm sorry, Senator Koch, your light is blinking.

SENATOR KOCH: Mr. Speaker, I know we are somewhat frustrated and tired but there is an item on the agenda that says General File.

SPEAKER MARVEL: Yes.

SENATOR KOCH: And there are several bills there I think are imperative for the welfare of the state, one dealing with cities in relationship to interest and the problems they are having and a couple of others and if we don't deal with those today on General File and savings and loans is one that should be dealt with. We do it annually. If we don't deal with those today then you are jeopardizing, I think, some institutions and some cities. I have had calls from mayors. I think many of you have had and for us to walk away from General File today without trying to deal with a few bills that absolutely need some kind of a treatment I think is negligence on our part and I hope we would not entertain a motion to adjourn right now without going to General File.

SPEAKER MARVEL: I have a comment to make. That is, I think some of us have tried all day to try to figure out a way to break the filibuster so that we could get to these motions and whether Senator DeCamp is happy with me or not now, he at least tried. I would be perfectly willing tomorrow to try to work overtime to get...tomorrow is the last day on General File.

SENATOR KOCH: Mr. Speaker, I would remind you that we also have a considerable number of bills on Select File and if we continue to debate those again like we have in the past we may be here until midnight tomorrow night.
